

# Caring For Your Furniture

To get the most out of your investment, you should follow the general guidelines below:

- Always protect your suite from direct sunlight, as this will accelerate the natural ongoing discolouration process.
- On pigmented leather, dust should be removed by vacuuming and wiping with a slightly damp cloth or recommended leather cleaner on a regular basis. Always use approved leather cleaning products rather than household cleaning products which may damage the treated surface of the leather.
- Aniline leathers require particular care, as they lack a protective coating. Use products specifically designed for these types of finish and follow instructions carefully. Always test any cleaning process on an unseen area.
- Never place leather furniture against any heating source such as a radiator.
- To remove spillages, do not rub into the leather as this will cause staining.
- Liquids should be quickly removed from the leather by using the edge of absorbent paper towels and then dabbing the area lightly with clean towels.
- Sweat or perspiration may cause harm to leather, such as colour-loss and cracking. To minimise the risk of this happening in heavily used areas such as the arm and head rests, we advise that the cleaning instructions are regularly adhered to.
- Seat, arm and back cushions should, where possible, be regularly plumped up to maintain the shape of your suite.
- Try to avoid sitting on the edges of cushions or arms, as this may cause uneven wear and distortion of the padding and leather.
- Certain non-colourfast clothing such as denim can stain light coloured leather if it comes into regular contact.
- Sharp objects may scratch the surface.
- Castor cups are useful to reduce indentations on carpets and wood flooring.
- Strong sunlight can cause leather to fade and crack.

## Giovanni — Sofa Range

The Giovanni range uses a bright but traditional leather, providing a time-less piece for your living space to admire in years to come.

- **Shown in:** Miami Leather (Colour: Camel)
- 100% Genuine Italian Leather

*Our Sales Assistants are fully trained on this range so feel free to ask them any questions in-store or online.*

Caruso Leather is a **Full-Aniline** leather.

- ◇ Dyed the whole way through in the colour Marine 14704
- ◇ Approx. 1.1mm in thickness
- ◇ Full-Aniline leathers offer little to no protection—you will see most of the marks and blemishes that natural leather provides
- ◇ Spends longer in the tannery to ensure a softer finish
- ◇ Natural markings are enhanced
- ◇ Hides finished in tanneries in the Northern Italy

*Please note our natural leathers will change appearance as it ages, and colour will vary from piece to piece. Every hide is unique, like a fingerprint. Variation is to be expected and is synonymous with high quality natural leather.*
